EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the Claims:

The following change has been made to cancel claims elected without traverse:

Claims 4-6 have been cancelled.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

The Examiner agrees with Applicant's remarks, specifically:

"Amended claim 13 calls for a pivotal arm (232), FIG. 3, pivotally mounted about standard means for a frame (214), it being a first-class lever, such as the Roth (46), however, the claim also calls for a second-class lever (204) which is not taught by Roth '266. Applicant's second-class lever is actuated by actuation of the pivotal arm to seat bearing (215) on the (217). It is submitted that the characterization of the Roth'266 bracket (41) as a platform is erroneous. His bracket secured to his frame (14) supports pivotal brake support (42) on a pin (43). His pins (43) and (48) and brake device (42) remain in physical attachment to bracket (41) and do not separate themselves from bracket (41) as is done by applicant's bearing (215) which is not attached to his frame (41). And it is important to note also that Roth '266 does not raise or lower his wheelchair (45) in the operation of his braking and releasing arrangement to brake device (42)." Emphasis added for Examiner's note. Note that the wheelchair is not claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
